PLOT TO DEPOSE GOV. PATTISON

No Further Steps Will be
Taken by Lawyers It
Is Said

END OF INGLOURIOUS FLASCO

PEOPLE OF STATE ARE AROUSED OVER
THE CROEL SCHEME

Capt. Gillilan Got Cold Feet and Mr.
Crayton Was Then Given
His Seat.

Columbus, May 11.—A bunch of
men with a sly concerted scheme
marched after jobs and then marched
back again.

What is pronounced by many to
have been the cruelest scheme to em-
barrass Governor Pattison since the
executive was stricken with illness
has failed. Only the word of those
penitentiary officials, who employed
the attorneys to retain control of the
prison is needed to end the flasco.
This word has not yet come, but the
attorneys, cognizant of the disap-
proval with which the plans have
been greeted in the state and at Wash-
ington, are doing nothing to further
them. Attorney James A. Allen, as-
sociated with ex-Congressman Em-
mett Tompkins and ex-Judge David
F. Pugh as counsel for those back of
the scheme today stated that no fur-
ther steps to push the case will be
made.

Complete and inglorious was the
flasco resulting from the proposed at-
tack upon the right of Gov. Patti-
son to administer the office of the
chief executive as planned by the
penitentiary managers and officials.
It is difficult to say which volume
of expression is the larger, laughter
at the failure, or curses at the stupid-
ity of the conspirators. Apart from
both of these is the deep anger of the
people in general at the cruelty of the
proposed proceedings and the utter
disregard of the proprieties of the
hour.

The plot which seemed so sure of
execution failed, because Captain Gil-
lilan's courage failed him at the last
moment, or because he saw that he
was committing a grave mistake.
Captain Gillilan was the retiring Re-
publican member whom Edward W.
Crayton, Democrat, of Newark, had
been appointed to succeed. In mili-
tary terms he was the key to the sit-
uation. He was the only man who
could present the protest against the
reception of the commission of his
successor on the ground that it had
not been properly executed. This
done, the remaining members of the
board could carry out the rest of the
plot and refuse to recognize the new
member, thus continuing the old
board in office until the courts should
decide the dispute which would be
thereby raised. As one of the disap-
pointed conspirators put it, Captain
Gillilan evidently forgot to put the
coverlet over his lower extremities,
and his feet became cold.

At the morning session this frosty
mishap became known, and the plot
went higher than the stack in the
prison yard. The Democratic mem-
bers of the board, Colonel Thompson
Burton of Youngstown, and McElvlin
Dunn of Bellefontaine were appointed
to wait upon the new member and es-
cort him to the prison. The Republi-
can members concluded to go along.
Captain Gillilan at first denied that
he had ever heard of the protest, but
by degrees he thawed and admitted
that it had been presented to him and
that he had refused to sign it.

When the result became known
there was much rejoicing on the part
of such Republican leaders as Audi-
tor Guilbert, Secretary of State Lay-
lin and Insurance Commissioner
Vorris. All morning messages kept
pouring in from Washington and
from throughout the state imploring
those commanding some influence to
exert it against the consummation of
the plot.

During the morning Secretary
Honck opened telephonic communi-
cation with the hospital in Cincinnati,
where Governor Pattison is domiciled
and received from him directions
how to proceed. These orders corrob-
orated the statement that it is not his
intention to reorganize the peniten-

tiary at once, but to wait until he is
well enough to make a personal in-
vestigation. He asked the members
of the board to do nothing until they
heard from him.

Inquiry into the details of the con-
spiracy is now the order of the day.
Yesterday afternoon a studied effort
was disclosed to put the onus of the
attack upon the brewing and whole-
sale liquor interests. Nothing could
be farther from the truth. Ex-Con-
gressman Tompkins the chief counsel
in the case, stated that there was no
such connection, saying that the pro-
test was filed upon totally different
grounds and for another purpose. It
can be stated with authority that
those behind the flasco were connect-
ed with the penitentiary for the most
part. They wanted to keep their
pleasant places. It is true that Mr.
Tompkins said there was a possi-
bility that a suit in mandamus might
be brought to compel the Lieutenant
Governor to execute the office of gov-
ernor, but the indications are that
this feature of the plot has gone into
the discard with the now justly cele-
brated protest of the man with the
frozen hoofs.

There are various statements re-
garding the causes that led Mr. Gil-
lilan to change his mind. The most
plausible story is that it was effected
through the influence of George Selby
of Portsmouth, who was one of the
leading Pattison Republicans of the
state.

It was learned that the expected
fight was planned to take place some
weeks ago, when Governor Pattison
announced the name of Matt R. Den-
ver to succeed Rowland. At that
time special inquiry was made by
Warden Gould as to which of the vacan-
cies Denver had been selected for.
It seemed an innocent inquiry then,
but in the light of what took place it
had a wide meaning.

The shift in the nominations caused
a change in the plans, but far differ-
ent material was encountered in the
person of Gillilan.
From a political standpoint it is
agreed that the Republican official-
holders concerned in the flasco have
committed what is worse than a crime—
a blunder.

On every hand it is agreed also
that Pattison has now sufficient
grounds for the removal of every one
of the members of the old Board of
managers.

GOV. BECKHAM

In Summoning 600,000 People to Re-
turn to Old Kentucky—Issues
a Proclamation.

Frankfort, Ky., May 11.—In sum-
moning the six hundred thousand ex-
Kentuckians now residing in other
states to return to Louisville for
"homecoming week," June 13 to 17,
Governor Beckham issued a proclama-
tion in which he says in part: "As
governor of the commonwealth of
Kentucky, I, J. C. W. Beckham, com-
mand each and every former Ken-
tuckian, whether separated from us by
imaginary state lines or broad seas,
to come back home. If he be at the
plow, the forge, the counting room,
the business office or in whatever em-
ployment, let him for the time cease
his work and return home. Men, wom-
en and children who possess the price-
less heritage of having a drop of Ken-
tucky blood in their veins, must obey
these commands and fail not to be
with us during this gala period."

COAL OPERATORS

Adopt Resolutions Authorizing the
Appointment of Committee to
See President.

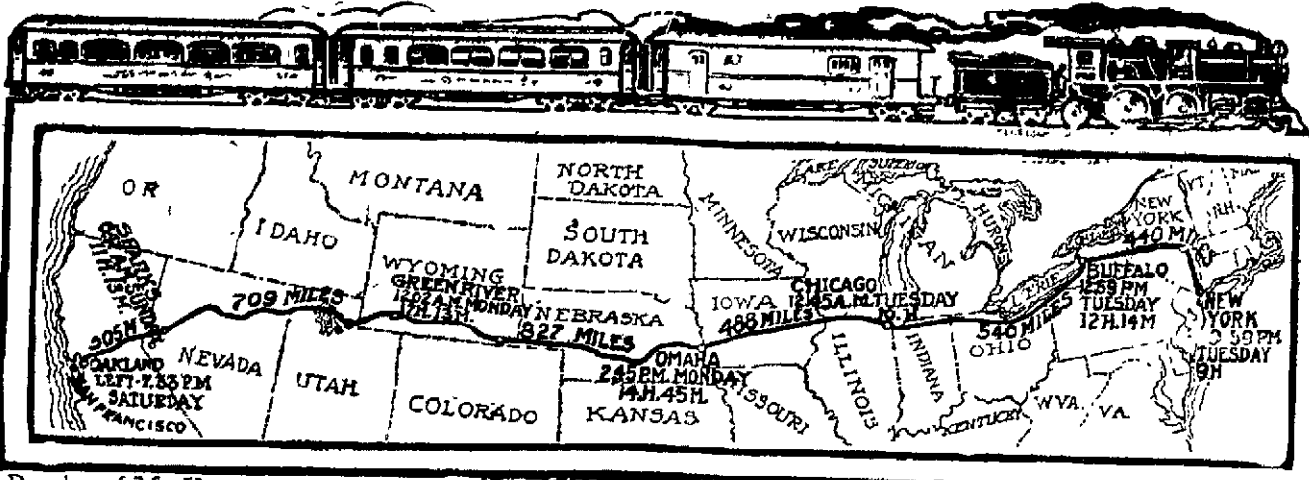

Chicago, May 11.—The Illinois, In-
diana and Ohio coal operators in joint
session adopted resolutions authoriz-
ing the appointment of a committee
to lay before President Roosevelt the
differences between bituminous oper-
ators and the miners. No action will
be taken by this committee, however,
unless the conference arranged be-
tween the Illinois operators and min-
ers, and which has been set for next
week, fails of its mission. Should the
peace conference be a failure, then the
operators will appoint the committee
and President Roosevelt will be asked
to intercede and endeavor to bring
about an adjustment of the difficulties.

FRISCO INSURANCE

New York, May 11.—The sufferers
by the fire following the earthquake
in San Francisco will experience less
loss through failure of their insurance
underwriters than those in any great
conflagration which has visited this
country, according to a statement
made by President J. H. Washburn of
the national board of fire underwrit-
ers, at the fourteenth annual meet-
ing of that organization. Mr. Washburn
said that the San Francisco disaster
found the insurance companies better
prepared than they ever were before
to meet such enormous losses.

Eight indictments were returned at
Parkersburg, W. Va., against S. G.
Duckworth, a former agent of the
Equitable Life Assurance society. One
is for the alleged larceny of \$5,000.

ILLUSTRATING MR. HARRIMAN'S TRANSCONTINENTAL TRIP.

Route of Mr. Harriman's record-
breaking trip across the continent.

New York, May 11.—E. H. Harriman
arrived here Tuesday night at 9:59,
completing his record breaking trip
between Oakland and New York in the
unprecedented time of 71 hours and 27
minutes.

He left the Empire State Express,
on which he came from Buffalo, say-
ing that he knew nothing of records
and was merely trying to get to this
city in time to meet important busi-
ness engagements.

"Our time," he added, "was 33 min-
utes less than three days. Various
railroad officials accompanied me as

RICHEST WOMAN IS NOW ENGAGED

MISS KRUPP HAS AN INCOME OF
FIVE MILLIONS A YEAR IS
TO MARRY.

Kaiser Who Takes Great Interest in
Her Career Will Visit Krupp
Residence.

Berlin, May 11.—Miss Bertha
Krupp, the wealthiest woman in the
world, heir of the German iron mas-
ter, whose annual income is \$5,000,000
is engaged to be married. The
name of the lucky man who has won
her affections is being kept a strict
secret, however. One report is that
her fiancé is a royal prince, while an-
other story has it that the favored
suitor is a poor physician, who won
her.

The Kaiser, who takes a great in-
terest in Miss Krupp's career, is
shortly to visit the Krupp residence
at Essen, and the betrothal will be
celebrated in his presence, with a
sumptuous festival, according to the
German custom. The name of the
chosen husband of the heiress will be
kept a secret until that time.

HOPES OF SETTLEMENT.

London, May 11.—The Times prints
a dispatch from Cairo today which
states that hopes are entertained that
a peaceful settlement will be reached
in the dispute between Great Britain
and Turkey.

EDUCATION BILL

Passed on Second Reading in House
of Commons by Vote Smaller
Than Usual.

London, May 11.—The educational
bill was passed on second reading in
the house of commons by a vote much
smaller than the government's nomi-
nal majority, but fully equal to the
government's expectation. The de-
bate on this measure has not been an
especially interesting one. The great
struggle will occur when the bill is in
the committee stage. H. H. Asquith,
chancellor of the exchequer, speaking
in the house of commons, said the gov-
ernment would resolutely adhere to
the main provisions of the bill, which
were dictated by justice and approved
by a vast majority of the electors, but
was perfectly ready to consider all
manner of details in committee and
listen to any suggestions with a view
to harmonious adjustment.

CARDINALS ASKED TO EXPLAIN LETTER

Rome, May 11.—As a sequel to the
presence of four cardinals at the din-
ner given by Ambassador White in
honor of Archbishop Ireland, April 25,
Cardinal Oreglia has written a letter
to each of the four cardinals, Vincenzo
Vannutelli, Satolli, Mathieu and Mar-
tinielli, asking them for an explanation
of their presence at a function given
by a diplomat accredited to the quiri-
nal. One of the four cardinals, who
since the issuance of the letter above
alluded to has been received by the
pope, states that Pope Pius said that
they were right in accepting Ambassa-
dor White's invitation to the dinner in
honor of Archbishop Ireland, but that
the note had to be sent out to prevent
possible future infractions of an estab-
lished policy at the vatican.

ELECTROCUTION OF DR. O. C. HAUGH

SET FOR AUGUST 29 BY JUDGE
BROWN AT DAYTON THIS
MORNING.

Prisoner Who Was Refused a New
Trial Received Sentence With
Indifference Today.

(Bureau.)

Dayton, O., May 11.—Judge Brown
in Common Pleas court this morning
overruled the motion for a new trial
in the case of Dr. Oliver C. Haugh,
convicted for the murder of his par-
ents and brother, and sentenced the
prisoner to be electrocuted Wednes-
day, August 29. Dr. Haugh received
the sentence with his characteristic
indifference.

TRAIN HITS CAR WITH FATAL RESULT AT CHATTANOOGA

Chattanooga, Tenn., May 11.—A
Chattanooga-Southern passenger train
ran into a Lookout Mountain trolley
car this morning. Contractor Rankin
and Foreman Derrigo, of the Central
Manufacturing company were instan-
tly killed, Fred Fry, a laborer, was
fatally injured and five passengers
more or less seriously injured.

Lynchburg, Va., May 11.—Three
fishermen were killed this morning in
a wreck on the Norfolk and Western
below the city. A number of persons
were injured.

ROCKEFELLER'S FINE INSTITUTE

OPENED THIS AFTERNOON WITH
APPROPRIATE CEREMONY
IN NEW YORK.

Oil King Gave Three Million Dollars
to Found This Medical
Institute.

New York, May 11.—The Rockefel-
ler Institute for medical research
was opened this afternoon with ap-
propriate ceremonies. It is expected
that John D. Rockefeller who gave
\$5,000,000 to the building and equip-
ment of the institution, will be pres-
ent. The institute is the first of the
kind and was founded after the death
of Rockefeller's infant grandchild
for 7 years ago, to study the diseases of man.

SUTHERVILLE BURNING.

Suterville, Pa., May 11.—Fire
which started at 2:30 this morning
in a two story frame building oc-
cupied by Kelly Brothers as a general
merchandise store spread with rap-
idity that paralyzed the efforts of the
local fire fighters. Help was called
from other cities.

far as Buffalo, where the special train
was left, and with my secretary I
boarded the Empire State Express to
this city."

This journey across the continent
recalls the effort made by Mr. Harri-
man last October to establish a record
to New York.

As an actual race against time, the
journey completed Tuesday night has
established a record, and is 24 hours
better than the speed accomplished
under similar conditions. One of the
best records for transcontinental rail-
roadings was made by a Tarratt-Palmer
theatrical special in 1873, in 80 hours
and 45 minutes.

STANDARD PAYS ALL THE TAXES

SO SAY TREASURERS WHO ARE
TO TESTIFY BEFORE THE
COMMISSION.

More Facts Brought Out at Hearing
Friday Showing Ways of
the Trust.

Toledo, O., May 11.—County treas-
urers of Ohio subpoenaed to appear
before the investigating committee of
the interstate commerce commission
in Chicago to testify against the Stan-
dard Oil company will, according to
their statements, be able to show
that the taxes of the Buckeye Pipe
Line company, the Ohio Oil company,
the Solar Refining company and other
concerns are paid by the Standard
and most of them by T. M. Town,
realty and tax agent for the trust.

Chicago, May 11.—Witness M. Max-
on, formerly the Standard Oil man-
ager at Decatur, Ill., before the in-
terstate Commerce Commission's in-
vestigation of the oil industry, today
admitted that when he ceased active
work for the Standard he was to have
a year's vacation with full pay, and
at the end was to return to his duties.
The arrangement was made with C.
F. Collings, of Cincinnati. When he
returned to Standard headquarters
about returning to work, he received
a letter saying his reinstatement
would rest in "abeyance." He sent
the letter to Charles M. Pratt, 26
Broadway, New York with the word
"abeyance" underscored and this pen-
cilled comment: "Abeyance—This
means loss of gallantry, money and
annoyance to the Standard for ten
years."

He admitted having written the
letter introduced notifying the offi-
cials of the trust that he has been
summoned to appear before Commis-
sioner Garfield and also the Illinois
legislature to furnish evidence con-
cerning the oppressive methods of
the Standard agents, directing Pratt
where he could be reached by tele-
graph, if there were any reasons why
he company did not want him to com-
ply with the summons. In other let-
ters, Maxon wrote it was a bad tim-
ing to accuse and mistreat an old em-
ploye. Maxon said he organized the
Standard Oil company of Decatur, Ill.
the independent of which he is now
manager. He refused to furnish the
name of stockholders, saying the
trust repeatedly offered money for
this information. The witness ad-
mitted having in his possession 1,700
letters revealing Standard Oil se-
crets. He said he got 622 from
Charles Kercher, of Columbus, Ohio,
and the rest by the same means the
Standard uses to get information.

Maxon wrote that the Pratt letters
had been copied by the government
and he had certified copies of pre-
cedings at the secret Standard meet-
ing in New York to furnish to the
government. The witness said a man
came to his home within the last 29
days and said he had any proposi-
tion to make the Standard Oil com-
pany would listen. Employees of the
trust were supplied with railroad
passes by W. C. Elliott, secretary of
the Kentucky company, according to
the witness. Counsel Monnett will
request Garfield to send passes and
other evidence to the commission to
use in the hearing.

Chicago, May 11.—In the hearing
before the interstate commerce com-
mission, corruption of railroad em-
ployes and agents of independent oil
companies, dishonest methods of pro-
curing land leases, the giving of short

measure and the selling of three dif-
ferent kinds of oil out of the same
tank and misrepresentations of the
quality of oil sold were charged
against the Standard Oil company.

It was alleged that the Frisco
road gives a rate of 2 cents per hun-
dred to the Standard Oil company
when it charges competitors of that
company 10 times as much for the
same haul. The inquiry was held un-
der an order of congress and the ses-
sion held here was along the same
lines as that held some time ago in
Kansas City.

The principal witness of the day
was E. M. Wilhoit of Springfield, Mo.,
formerly for 10 years agent of the
Standard Oil company at Topeka,
Kan. It was he who made the charges
of bribery and dishonesty against the
company and said that the Frisco road
discriminated in favor of the Standard
Oil company. Other witnesses for the
day were H. C. Deran of Fremont, O.;
E. P. Ripley, president of the Santa
Fe road, and M. Maxon, a former
agent of the Standard Oil company in
Illinois. The last witness gave testi-
mony which in many instances was
the same as that given by Mr. Wilhoit.

M. Maxon, formerly agent of the
Standard Oil company at various
points in Illinois, said that the Stan-
dard Oil company through subsidiary
companies fought the independent
dealers by reducing rates in their ter-
ritory, and although the reductions
were not made in the name of the
Standard Oil company, it was in real-
ity that concern which was making
them. He said that the state inspec-
tors did not, except in rare instances,
inspect barrels of oil, and that many
of them left their stencils in the hands
of the Standard Oil company over
night.

Mr. Deran was asked for the official
record of the trust agreement of the
Standard Oil company as contained in
a case tried in Ohio, and it was or-
dered into the record of the hearing.
Mr. Deran testified that the Standard
Oil company of Ohio, Buckeye Pipe
company, Manhattan Oil company and
the Republic Oil company, all subsid-
iary companies of the Standard Oil
company, had used devious methods
in obtaining from farmers the leases
of oil lands. He declared that they
led the farmer to believe that compe-
tition existed between them, when in
fact there was none.

PAPERS EXPRESS DISAPPOINTMENT

St. Petersburg, May 11.—The papers
today express disappointment because
of the failure of the czar to include
any reference to an amnesty for po-
litical offenders in his address from
the throne which he read to the
duma yesterday.

Everyone is hoping that great good
will come to the country through the
assembling of the duma. The energy
of the president, M. Morozovskif, has
been favorably commented upon. The
pesant deputies by their attitude, cre-
ated a fine impression.

It is reported on good authority to-
day that M. Goremykin, premier, will
resign soon.

AGED MAN KILLS WIFE AND HIMSELF

Philadelphia, May 11.—J. L. Yarnell,
aged 60, fatally shot his wife, age 72,
and killed himself this morning. The
couple hadn't left their bedroom. No
motive is known. They appeared de-
voted to each other.

EARTHQUAKE FELT IN INDIANA TODAY

Petersburg Ind., May 11.—Two dis-
tinct earthquake shocks were felt here
at 12:50 o'clock this morning. Build-
ings shook so violently that people
jumped from their beds. The second
shock followed the first at an interval
of 14 seconds. A vivid flash, similar
to lightning, and a low rumbling noise
from the west preceded the first shock.

TO PAY 1905 SCALE.

Columbus, May 11.—Who will offer
to pay the miners of Ohio, Indiana
and Illinois the scale of 1904 1905?
We hope in opening the mines it will
not be necessary to do so without
agreement with the mine workers.
We would rather settle the difference
among ourselves," says John H. Win-
ch, chairman of the bituminous min-
ers, who returned from the con-
ference at Chicago today.

PAID THEIR FINES.

St. Paul, Minn., May 11.—The first
on the paper, trust in the United
States Circuit court was abandoned
today when the Minnesota directors
of the trust paid the fines imposed
for refusing to answer questions.

MRS. DAVIS' CONDITION.

New York, May 11.—It was stated
at Hotel Gerard this morning that
Mrs. H. Davis, widow of the
president of the Consolidated

GEORGE RAAB IS NOW FREE MAN

Judge Seward Instructed the
Jury to Acquit the
Defendant

WHEN STATE RESTED CASE

EVIDENCE INTRODUCED DID NOT SHOW
A CONSPIRACY

What Effect If Any This May Have on
Other Cases Remains to
be Seen.

The spectators who were present
Friday morning to hear the defense
begin its testimony in the case of Ohio
against George Raab, charged with
aiding George Collins in the murder of
Homer Loar, were much surprised to
hear Judge C. W. Seward announce to
the jurors that they should return a
verdict of not guilty, owing to the
fact that in the Court's opinion the
state had not produced any evidence
tending to show that Raab had con-
spired with Collins for the murder of
Loar.

The scene in the court room when
the jury announced the verdict in ac-
cordance with the instruction of the
court, was interesting and quite dra-
matic. The defendant was seated by
the side of his wife. A look of relief
and happiness came over his face, and
when his friends, and the members of
the jury, stepped up to congratulate
him, his emotion was hardly repressi-
ble, and tears stole into his eyes for
an instant but were quickly repressed.
The defendant thanked the court
and after receiving a few kind words
of fatherly advice from Judge Seward,
together with his wife, who had been
in close attendance on the trial,
walked down the steps, through the
corridor, and out into the street, a
free man.

When asked by an Advocate re-
porter what, if anything, he would
care to say for publication, Mr. Raab
said: "I have nothing to say, except
that I am glad to be free, and I should
like if possible to have the word reach
my home in Dayton as soon as possi-
ble, for I have a number of relatives
there who will be glad to learn it."

The decision of the court in the case
was given as follows:

Gentlemen of the Jury: In the case
of the State of Ohio vs. George Raab,
the State has produced its testimony
and rested its case, and a motion is
made to direct a verdict for the de-
fendant.

George Collins is charged in this in-
dictment with having, purposely and
with deliberate and premeditated malice,
killed Homer Loar. That is, he is
charged with murder in the first de-
gree. The defendant, Raab, is charged
in this indictment with having aided
and abetted George Collins in the murder
of Homer Loar.

In order to convict the defendant,
Raab, with being an aider and abet-
tor, it must be shown by the State,
beyond a reasonable doubt that he did
something to incite Collins to commit
the crime of murder in the first de-
gree, or some of the lesser crimes
which are included within the scope
of the definition of murder in the first
degree. That is that Raab, by some
act of his, or some conspiracy with
George Collins, became a party to the
murder of George Collins in the murder of
Homer Loar.

As the court views it there is no
testimony tending to show any con-
spiracy on the part of Raab with Col-
lins, or that at the time of the com-
mission of the act by Collins, Raab
corroborated any overt act towards in-
citing Collins to commit the act of
murder.

There is no testimony at all as to the
conduct of Raab, tending to prove either
of these facts. That is, that Raab
entered into a conspiracy with Collins
to murder Homer Loar, or at the time
of the shooting was done, Raab did
something to incite Collins or to induce
Collins to commit the act.
The Supreme court, in a case very
similar to the one at bar, has passed
upon this question, and the court
wishes to refer to that. It is in the
20 Ohio State, page 271; where a man
by the name of Woodraver in this
State at some junction on a railroad,
killed the name of the town, had
a number of men, or agents the state
wanted to prove that he was drunk
at the time of the shooting, having not
been drunk at the time of the shooting.

An Animal Story For Little Folks

Bunt, the Bear

Bunt, Uncle Billy's pet bear, had broken his chain and got loose. Uncle Billy was gone to town, and Uncle Billy was the only person in the house who could make him behave.

"Bunt's loose! Bunt's loose!" screamed all the children, running in to their mother. Aunt Jennie took them with her into the bedroom.

Bunt came shuffling and snuffling into the house. He smelled some honey up in the attic in a big wooden chest.

Bears love honey. He shuffled upstairs and grunted and snuffled when he got close enough to smell the honey plain. He climbed up on the back of the chest and pulled at the lid. Up it came, and in went his brown hairy paw. He got it full of honey. Then he leaned forward, and his weight smashed the lid down on it, pinching it cruelly. He drew back howling, pulled his paw out and licked it. Then he tried again. For nearly an hour old Bunt worked at that chest, but as he always got up on the lid before he tried to open it so he always pinched his toes and never got any honey.

When Uncle Billy came home he told him how bad the bear had been. He went upstairs to lead him down and chain him in the back yard.

Poor Bunt looked so miserable when he was being dragged away that Uncle Billy said, "I'll sell you to a circus, but first I'll give you as much honey as you want to eat, only you mustn't tell anybody I gave it to you."

Bunt winked his little piggy eyes as much as to say that he knew better than to tell. Uncle Billy turned back and gave him a great big piece of honeycomb to eat, and I am sure that Bunt did understand every word, for he has never to this day told anybody who gave him that honeycomb. — Atlanta Constitution.

THE WAR LORD.
Emperor William and his interest in military affairs.

The German emperor is as fond of martial display as President Roosevelt, and, like America's chief magistrate, he knows every detail of war preparation. He has made a very careful study of military matters, loves to ride at the head of his troops and would doubtless lead the German army into the field if his empire made war.

During military maneuvers he often talks with private soldiers. "What is your name?" he said recently. The question was addressed to a soldier of good proportions and with a face that spoke of good humored simplicity and honesty.

"I am called Johann Andree, your majesty."

"Andree?" said the emperor. "Then you are the namesake of a very celebrated man. Did you know that?"

"Your majesty means Andree, the polar explorer?"

"Of course! How did you come to hear of him?"

"My captain told me that my name was the same as his, your majesty."

"And what else has your captain told you about him?"

"Very little, your majesty. He only said that he wished the other Andree had taken me with him."

"I don't think your captain meant that to be taken quite seriously," laughed the emperor, and, slipping a coin into the man's hand, he went on his way. The point of the joke is, of course, that Explorer Andree never came back.

Weak Lungs

It is the old story of a weak throat, a tendency to weak lungs in the family. You no sooner get rid of your old cold than a new one takes its place. Ayer's Cherry Pectoral breaks up this taking-cold habit. It strengthens, heals. Ask your doctor, the very next time you see him, what he thinks of Ayer's Cherry Pectoral for weak lungs.

We have the secret. We publish it. J. C. Ayer & Co., Lowell, Mass.

NO PERSON

Would Make Such a Proposition to the People of Newark Unless They Were Absolutely Sure.

Did you ever know or hear of a person who would offer to return every cent you paid him if he could not build up health and create strength and vitality for old people, weak, stately women and children and the convalescent, create an appetite, cure stomach troubles, make those who are too thin, fat, rosy and healthy? Or cure hacking coughs, chronic colds; throat and bronchial troubles? This is exactly the offer our well known and reliable druggist, Frank D. Hall, makes to every person in Newark.

Mr. Hall says: "Our offer is based upon what we believe to be the greatest strength-creator and health-restorer known to medicine, Vinol, which is the up to date form of administering cod liver oil, recognized for centuries as the grandest of all body-building agents for wasted human strength and vitality. Vinol we have simply done away with the useless system-clogging oil, and given the people all the medicinal curative elements of cod liver oil actually taken from fresh cods' livers and have never sold in our store a medicine of more intrinsic value."

As a body builder and strength-creator for old people, weak women, puny children, after sickness and for all pulmonary diseases, its fame has spread so far that it is now guaranteed by over two thousand of the leading druggists of the country, and especially by us." Frank D. Hall, Druggist.

SENATE VOTING ON AMENDMENTS TO RATE BILL

Washington, May 11.—The Senate met an hour earlier today with a view of reaching a final vote today on the judicial review feature of the railroad rate bill. The question as to whether the inferior courts should have limited or unlimited jurisdiction in reviewing the rates fixed by the interstate commerce commission has been the storm center of a long and aggressive contest waged since the bill came from the House. The first of the Allison compromise amendments, striking out the words "fairly remunerative" from the description of rates that may be ordered by the interstate commerce commission, was adopted without debate by a viva voce vote. The second of the Allison amendments providing that orders of the interstate commerce commission shall go into effect within a "reasonable time" instead of "thirty days" and continuing in force not more than two years, were adopted. Bailey's amendment to entirely prohibit the issuance of preliminary injunctions or to suspend the operation of the orders of the interstate commerce commission was defeated.

Mr. Bacon's amendment prohibiting the issuance of any injunction without concurrence of two judges one of whom must be a circuit judge was defeated. The Tillman amendment giving the commission authority to make rates over point routes, where the transportation is partly by water and partly by rail was rejected. The Lodge amendment giving the same authority "when one of the connecting companies is a water line" was adopted.

It is now "The Right Hon. John Burns, P. C., M. P., president of the local government board," yet he is the same John Burns who led the great dock hands' strike and who was imprisoned for "obstructing the public highways" and insisting upon the exercise of the right of free speech. He is now a British cabinet minister and enjoys a salary of \$10,000 a year, but he lives as simply and unpretentiously as he did when he worked at his trade as an engineer or when he had to support himself and his family on the £200 raised for him annually by workmen in order that he might devote himself to their interests in the house of commons and in the London county council. He is now the most popular of the British cabinet, and the position he has received is a popular recognition of the great work he has accomplished in behalf of the wage-earning classes. At forty-seven he still works twelve hours a day, though he advocates an eight hour day for others. His hair and beard are gray, but they have been since he was thirty, owing to the strenuous experiences he went through in the battle for the rights of his class. He has grown somewhat more conservative with years, and some of his colleagues now denounce him as an apostate.

JOHN BURNS, M. P.

is not one of the "useful men" at all so far as success is measured by money and standing. He is just a plain workingman tool, a tool to emphasize the fact that no man is to be put in the government by the votes of wage-earners. He has not adopted any of the traditions associated with the ministry. He wears his blue serge suit and white shirt with a white tie, and a white necktie. He is a man of the people, and he is a man of the people.

ANNOUNCEMENTS OF CANDIDATES

On Saturday, May 12, 1906, the Advocate will begin the publication of the names of candidates for the various county offices that are to be nominated by the coming primary elections of the Democracy of Licking county. Terms, \$2.00.

The Boston Globe insists that William Jennings Bryan must hurry home. The Globe claims that if the Colonel doesn't get home pretty quickly there will not be a plank of his platform left outside the White House.

An effort is to be made to rebuild San Francisco upon a plan that will make it one of the most beautiful of cities. It is to be very similar to that of Washington, it being proposed to have a central point from which broad avenues will radiate in all directions. If this plan is adopted it is proposed to form a syndicate which will raise from \$100,000,000 to \$250,000,000 to rebuild the city. In these days of great achievements there is no good reason apparently why the plan should not be carried into effect. The people of San Francisco certainly should not lose the opportunity to make their city a model in every respect that is now presented. The character of the calamity makes it possible to do this, because the destruction of so many buildings will render it easy to readjust the street plans to the new ideas.

ROGER JONES GETS CHICAGO FELLOWSHIP

Young Son of Hon. J. B. Jones is Meeting With Great Success as a Student.

Word has been received from Chicago that Roger M. Jones, the son of Hon. J. B. Jones of this city, has been awarded a Fellowship in Latin and Greek in the University of Chicago. Mr. Jones, who is not yet 20 years old, has been in Chicago taking a post-graduate course in the classics. Later in the winter he decided to make application for one of the Fellowships in his department. The application was made and although there was a large number of contestants, many of whom were several years Jones' senior, the Newark boy came out of the fray with colors flying and won the award with a high record.

While at Granville last year, Mr. Jones graduated with high honors, being several points ahead of his class in Latin, Greek and mathematics. He decided on a post-graduate course at the University of Chicago and was fortunate enough to get in a class under one of the most famous Greek professors in the country. His success has been wonderful, in spite of the fact that he has not yet passed his twentieth milestone.

Mr. Jones is fitting himself for a Ph.D. degree and at the present rate will get the degree before his twenty-second year. He expects to teach the languages as soon as his college work is finished.

THE ABORTIVE CONSPIRACY AGAINST GOVERNOR PATTISON

To Prevent Reorganization of the Penitentiary—A New Scheme in Politics That Came to An Inglorious End as Soon as It Was Born.

Columbus, May 11.—The abortive attempt of certain political influences to prevent Governor Pattison from reorganizing the Ohio penitentiary by questioning his physical ability to name a Democratic member of the board of managers, was no sooner known to the public than it was repudiated even by those who instigated it. Instantly it was discovered that public opinion in this state would not tolerate interference of this kind with the legitimate exercise of his powers by the governor, who was elected for the very purpose of doing among other things, what he proposed to do by the appointment of E. W. Crayton of Newark, to the penitentiary board.

It would have been a sorry day for politicians responsible if the program had been carried out. In the matter of an extradition case or other impersonal concern it might be expected that some pettifogging lawyer would question the functions of the executive; but where nothing is at stake except a few paltry political jobs, and

the persons who hold them raise this question only to save those jobs for themselves, it must be apparent to a man of ordinary intelligence that the public would not tolerate the performance. This was the case with the penitentiary conspiracy, which came to an inglorious end as soon as it was born.

The incident will doubtless tend to hasten the re-organization of the penitentiary, although Governor Pattison will do nothing without due deliberation. But there is no doubt that within the not distant future the reorganization will come, from the warden down to the most obscure individual under the authority of the board. It has long been felt that the penitentiary needed to have let in upon its dark recesses a few rays of pure Democratic light, and it is going to shine in that direction before very long. Those who were responsible for the recent fiasco in regard to Governor Pattison's legal responsibility are now the first to disown their own conspiracy, but neither they nor it will be forgotten.

This company will close its engagement on Saturday night with A Woman Scorned, a beautiful drama of real life, played with a most touching heart interest by the Cornell Stock company. Seats for all performances now on sale.

CRIMPY TO LEAVE TOWN FOR A YEAR

Police Court Character Did Not Like Fine of \$25 and 30 Day Jail Sentence.

For the thousandth time "Crimpy" Frazier's smiling face greeted Mayor McCleary Friday morning when he took the desk in police court. There was no necessity to ask what charge, "Crimpy" knew it was useless to plead otherwise than guilty, but he was stunned for an instant when the Mayor said \$25 and costs and 30 days in jail. The Mayor agreed to suspend the sentence if Frazier would agree to leave town in ten minutes and remain away for a year. "Crimpy" accepted the conditions and was last seen headed north on the B. & O. tracks. It is believed that the man has decided to locate in Mt. Vernon, where he will show some of the inhabitants there how to succeed in cornering the liquor market.

WASHINGTON NEWS

Washington, May 11.—Shells and projectiles for the navy department will, after June 30, 1906, be purchased by the bureau of ordnance in the open market instead of as is now the practice in secret markets from firms engaged in the manufacture of these articles. This change was brought about through the effort of the chairman of the appropriations committee, Mr. Tawney of Minnesota, who offered an amendment to the naval appropriation bill in the house which directs that the secretary of the navy should advertise for proposals for shells and projectiles, so that all firms engaged in their manufacture may have an opportunity to compete.

Trade With Cuba.

Washington, May 11.—Special Agent Charles M. Pepper of the department of commerce and labor, in reporting on his investigation of trade conditions in Cuba, predicts increased markets for the United States. He says that while the exports of Cuba in the last few years have exceeded the imports, the present year is likely to show a more evenly balanced condition, with the United States selling the island \$50,000,000 worth of products. He anticipates no falling off in the import trade. In spite of the drop both in production and price of sugar, Mr. Pepper does not regard the industry as facing a grave crisis, though there will be depression later in the year.

Onions at White House.

Washington, May 11.—Senator Dick headed a delegation of Ohio citizens which called on President Roosevelt to extend to him an invitation to attend the ceremonies incident to the laying of a tablet at Marietta, O., commemorative of the establishment at Marietta of the capital of the Northwest Territory. The celebration is to be held the latter part of next October and will be made the occasion of a notable ceremony. The entire Ohio congressional delegation will be present and prominent men from all parts of the country are expected to participate in the celebration. Representative Nicholas Longworth and Mrs. Longworth have indicated their intention to be present. The president expressed interest in the celebration, but said he doubted whether he would be able to accept the invitation.

DR. CHAS. A. HATCH

Is Improving Nicely Now That Finger Was Amputated by Surgeons on Thursday.

The condition of Dr. C. A. Hatch, who has been at the Protestant Hospital, Columbus, for some days, suffering with blood poisoning, is reported as being greatly improved Friday. At 3:30 o'clock Thursday afternoon the affected finger was amputated by Drs. Fletcher and Leach, the hospital surgeons. The doctor experienced great relief almost immediately, and Thursday night enjoyed the first good night's sleep he has had for some time. Friday he was able to sit up, his temperature and pulse both being normal, and is feeling better altogether than he has since he went to Columbus for treatment.

The height of the average Japanese soldier is five feet four inches.

Heart Weakness

The action of the heart depends upon the heart nerves and muscles. When from any cause they become weak or exhausted, and fail to furnish sufficient power, the heart flutters, palpitates, skips beats; and in its effort to keep up its work, causes pain and distress, such as smothering spells, short breath, fainting, pain around heart, arm and shoulders. The circulation is impeded, and the entire system suffers from lack of nourishment.

Dr. Miles' Heart Cure makes a heart strong and vigorous by strengthening these nerves and muscles.

"I had palpitation and pain around my heart, and the doctors said it was incurable. I don't believe it now, for after taking six bottles of Dr. Miles' Heart Cure, three bottles of the Nerve and Liver Pills I am entirely cured, and feel better than I have for five years, and it is all due to these remedies. I want you to know that your medicines cured me. I relieved me from the first dose, and I kept right on till the pain in my chest was gone, and I kept on feeling better even after I quit taking it." JOHN H. SHERMAN, Belding, Mich.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Of all the sad words of tongue or pen, the saddest are these: 'We're licked again!'

—Boston Globe.

(Special to the Advocate.)

Youngstown, May 11.—Twelve long innings were consumed by Youngstown yesterday putting the kibosh on Cotton Bates' husters, and then that feat was accomplished after some difficulty. The opening chapters were filled with woe for Youngstown, and the closing ones with grief for Newark. Too many errors lost for Newark.

The first inning got under way with two bases on balls and a hit by the pitcher, but even with all that assistance Youngstown failed to tally. They jogged along that way for five innings without episode until the sixth.

In the second period Davis drew a base on balls and looked grateful. Wratten sacrificed him along one station and went to third when Groh threw Dow's hard bouncer over Kellar's head. Davis kept right on going and scored on the play.

In the third Newark derived another when Drake forced Botenus, took second on Snodgrass' out and scored when Kellar dropped a throw to first. The fifth brought another, Snodgrass stopped a high out curve with the back of his head and appeared no worse for the encounter. Davis poked out a two bagger and Snoddie scored.

The halfway station brought a shower of base hits for Youngstown, coupled with some excellent donations. In that inning McCloskey went out from short to first. Kellar drew a base on balls and took second when Snodgrass missed a pitch. W. Thomas heaved to Davis and he let it go. McCloskey bumped a single to right field, and when the fielder juggled it he took second and Kellar scored. Groh poked out a single and Thomas scored. Then Kennedy struck out. Blount hit one so high into left field that when the ball landed it kept right on going and when Snyder woke up, Thomas and McCloskey had scored. Moloney received a base on balls, but Fohl was an easy out. Four runs.

In the seventh Newark tied it up on Snyder's single and a two bagger by Snodgrass. In the ninth Bradley went a liner into middle that Moloney stabbed with one hand, and in trying to recover himself kicked the ball out. Drake singled into left field but Thomas threw out Bradley at the plate. In the tenth inning Newark batsmen were all retired by Thomas.

Things bumped along until the twelfth with no signs of scoring. Your Uncle Sam Wise advised the players to hurry before it snowed and most of them took the admonition and moved fast.

In the last of the twelfth Kellar banged out a two-base hit that was

Sharon, Pa., May 11.—By bunching hits in the third and fourth innings Sharon won from Lancaster by the score of 3 to 2. Upps pitching and hitting for Lancaster were the features. Score: R. H. E.
Sharon 3 5 2
Lancaster 2 5 8
Batteries—Bates and Ulrich; Upp and Kunkle. Umpire—Bry. Attendance 900.

New Castle 4, Mansfield 1.
New Castle, Pa., May 11.—The Outlaws trimmed Mansfield here yesterday afternoon in one of the fastest games played in the Ohio and Pennsylvania league this season. Bowers on the rubber for New Castle, had the Mansfield batters at his mercy and only four hits were secured off his delivery.
Scanlon also pitched good ball, but New Castle was able to find him with men on bases. Mansfield's only run was the result of a bad throw by Agnew, in an attempt to cut off a man at second. Two lightning double plays, one started in right field and which ended at the plate, and Smith's one-handed catch of a long fly to the center field fence, were features of the game. Score: R. H. E.
New Castle 4 7 1
Mansfield 1 4 2
Batteries—Bowers and Agnew; Scanlon and Fox. Umpire—Lavelle. Attendance 500.

PLAYERS RELEASED.
Lancaster, O., May 11.—The local baseball management has released Pitcher Marquard Napenpark, Joe Locke, Bob Ferrell and Outfielder Ned Iger. Pitcher Mullin of the Baltimore (Eastern League) team; Pitcher Homer Mock, of the Albany (N. Y.) club, and Brown, an infielder of Newcastle, were signed. Shortstop Harry Cooper will be returned to Vincennes, Ind., where he came from.

ILGER RELEASED

Fast Outfielder With Lancaster May Be Secured to Play Right Field With Newark.

Lancaster, May 11.—The threatened shake-up in the Lancaster team occurred yesterday when Manager Gray released Pitchers Napenpark, Marquard, Ferrell and Locke and Fielder Iger.

"Blinky" Mock, late of Albany, N. Y., has been signed to play first base, and Brown, formerly second baseman with New Castle, will play short. Gervey, a right-hand pitcher, with Niles last season, will also be signed.

Iger has asked the Newark baseball company for a berth here and it is not improbable that he will be signed. Iger had some considerable trouble with several Newark fans here last season, but it was merely a personal matter and could be settled without any hard feeling. Iger is one of the fastest fielders in the business and his

hitting and base running is of the best quality. Not only is he good in the out field but can play any infield position, having played behind the bat on first, second, short and third. He would make a valuable addition to the Newark team, especially because of the weak position in right field. It is the duty of the Newark company to sign the man and strengthen the team. Newark must win every game possible and a fielder with a bad arm is a big mill stone around the neck of the team when a man is on third and a long fly goes to the out field.

ARMY BRISTERS TO PLAY HERE SUNDAY AFTERNOON
The King company of the City league have arranged for a game with the Armbruster's of Columbus, Sunday afternoon and the management announces that the game will be played on the O. P. grounds as the Newark team will be playing in Zanesville on that date. The City league game scheduled for that date will be played in the morning and the game with the Armbruster team will be called at three o'clock in the afternoon.

GAME SUNDAY

Newark-Mt. Vernon Team Will Play Crescents of Columbus—Chambers to Pitch Today.

The Newark-Mt. Vernon baseball team will open the season at Mt. Vernon this afternoon when the Old Denison battery will be pitted against the strong Interurban team of Columbus. The newly organized team will be strong in the field and at bat and the game promises to be an interesting one. Boyd Chambers and Dutch Webber, the men who made Denison famous last year, will deal out the puzzlers for the new combination team and this fact alone is almost a "23" sign for the Columbus boys.

The team will play in Newark on Sunday afternoon against the Crescents of Columbus and Danny Jones, who was signed with the O. P. team and Earl Beverly a well known Columbus star, will be with the Columbus aggregation. Manager Driscoll has made arrangements to play Sunday games and holiday games in Newark when the Newark O. P. team is not scheduled.

New Amateur Teams.
The Stephens, a newly organized amateur team of this city, will play their first game Sunday morning, when they will stack up against Fitzgerald's Specials another new amateur organization. The game will be played on the Stephens' new grounds on the Mt. Vernon road.

Frenchman Defeats Schaefer.
Chicago, May 11.—Jake Schaefer was given a taste of his own billiard medicine when Louis Cure ran 110 in the twenty-first inning of their contest and won the game, 500 to 463. Previous to this the Chicago expert had outplayed his opponent, and looked a sure winner. Cure started the game with a run of 112, but fell off badly in the succeeding innings, and except for a count of 79 in the sixteenth played only fairly in face of Schaefer's work. Slosson holds the high run for the tournament so far, 142, made in his game last night with Sutton. Despite this big run Slosson lost the game, having scored but 425 points when Sutton ran his 500 points.

Jauch McCartney, indicted for manslaughter for killing Earl Richmond at London, O., April 8, 1905, was acquitted at Circleville, O.

NEWARK SHOOTERS HIGH AT COLUMBUS

King and Taylor Candidates for Second Place in Amateur and Professional Class.

In the city trap shooting tournament at Columbus yesterday some high scores were made. Newark shooters are in the running and it looks very much like the Newark Gun club would be represented in the prize winnings.

Rollo O. Helges of Dayton won the big gun, breaking 194 targets out of 200 in the professional class. Stanley Rhoades of Columbus has the high amateur average, making 188 breaks out of 200. W. R. Clark of New Paris, J. D. McConnell of Dayton and Fred King of Newark are tied for second place on the amateur rank. J. W. Keefe of this city and Tryon of Cleveland tie for third place.

In the professional class John R. Taylor of Newark and LeCompte, a Kentucky professional, tie for second place. The score of the Newark men follow:

	Shot	Break
Orr	200	184
Taylor	200	185
Keefe	200	186
King	200	187

GEORGE RAAB

(Continued from Page 1.)

drunk early in the morning, as I presume was his custom, and he had an ill-feeling toward the station agent. The station agent was not at home during the forenoon, but came home in the afternoon. He went down along the station platform in front of the saloon owned by Woolweaver and got into some controversy with him; he left him and went back to his place of business—to his office—and in about an hour or an hour and a half afterwards went up to his place of business where he was and got into a quarrel with him and Woolweaver's two sons and his wife came up. One of the sons killed one of the persons who were there at that time, and Woolweaver was charged as a conspirator—as an aider and abettor in that murder, and the Supreme court held that such a state of facts is not shown as would constitute him an aider and abettor. The syllabus of the case reads as follows:

"A person who becomes involved in a fight with one or more antagonists, should not, upon that ground only, be held an aider and abettor of another, who may be present, and incited by the struggle commits an independent act of violence, that causes the death of the antagonist, or one of them, if there were more than one.

"In such case, to constitute the person engaged in the fight an aider or abettor of the homicide, it should appear, either, that there was a prior conspiracy—that does not appear in this case, in the mind of the court—or that he purposely incited or encouraged the slayer, or did some overt act himself, with an intent to cause the death of his antagonist."

That does not appear in this case as to George Raab.

In this case the Court was requested to give a certain charge to the jury: The proposition requested, and which the court declined to give to the jury, reads as follows:

"In the absence of a conspiracy, one who is present when a homicide is committed by another upon a sudden quarrel, or in the heat of passion, is not guilty of aiding and abetting the homicide, although he may become involved in an independent fight with others of the party of the deceased, unless he does some overt act with a view to produce that result, or purposely incites or encourages the principal to do the act; and so in this case, if you find the defendant on trial, although present at the time of the shooting, knew nothing of his son Henry having a revolver, or intending to shoot, and took no part in the killing, and did no overt act to produce that result, then he is in no way responsible, and must be acquitted unless you find from the evidence, and beyond a reasonable doubt, that the shot was fired by Henry in pursuance of a conspiracy previously formed by him."

The Common Pleas court refused to give that charge to the jury. It modified it. It was taken to the Circuit court, and the Common Pleas court was affirmed. It was taken to the Supreme court and the Supreme court reversed it, because they say the charge should have been given as it is laid down in this book.

So, gentlemen of the jury, as the Court views it, there is no testimony tending to show a conspiracy, or that George Raab at that time did anything to incite Collins to commit the act which he committed; and the Court instructs you to bring in a verdict for the defendant. A verdict of acquittal. Prepare the verdict. Mr. Clerk, Mr. Wright, you may sign it, as foreman.

The verdict was prepared and signed, as directed by the court.

The clerk read the verdict, finding the defendant not guilty.

The Court "Gentlemen, you are discharged from further attendance upon the court. The Court thanks you for the interest you have exhibited during this trial."

Exactly what effect this decision will

have upon the remaining six cases, in which the charges are similar is not known. It is understood, however, that in case this decision is retained the other indictments will be nolle prossed, and the men who are now in prison on these charges, be liberated. On the other hand, if the case is taken to the Supreme court, the other cases will depend upon its decision. Therefore, the case of Robert Heninger, charged with the same act, will not be tried next Monday as set.

Prosecutor James Fitzgibbon stated to the Advocate that he was undecided as to whether he would take the case to the Supreme court or not. However, whatever is done in this case will effect the others as the same line of testimony was to be used in each case.

THURSDAY AFTERNOON.

The examination of Hugh Taylor progressed Thursday afternoon. Taylor testified to seeing Raab in the field with the men just a short time before the shooting, and that a short time after the shooting, Raab rushed in the corner saloon, saving "Clear the Hell out of here, someone is shot over there." (It is supposed that the witness meant Keefe's saloon.)

The cross-examination of Taylor was conducted by B. G. Smythe. "Homer Loar was your uncle?"

"Yes, sir."

"Isn't it a fact that you didn't make any arrangements with anyone to kill your uncle?"

"No, sir."

"You didn't go to Sixth street to follow or get others to kill your uncle, did you?"

"No, sir."

"All of the strikers were instructed to do nobody any harm?"

"Yes, sir."

"You didn't expect the Hanover boys in on that car did you?"

"No, sir. We were just looking for anyone that might come in."

"You have some sort of communication in the jail?"

"Yes. There's a little hole goes up through there."

"You were talking to Beckford through there last night, weren't you?"

"Yes, sir."

"Didn't you tell him last night that you just simply thought that you saw Raab in that field, didn't you?"

"No, I said he was just in there a short time before the shooting."

"But didn't you say that to him?"

"No, sir."

"Wasn't you told that you were to receive compensation for all the time that you were in jail?"

"No, sir."

"Did you tell Mr. Webster that you had got information that Collins was going to turn you up?"

"I don't remember just how I stated it but something like that."

"Who all were down to jail to talk to you?"

The witness named the prosecutor, Sheriff, Chief of Police James Sheridan, Captain Bell and two other persons.

Taylor was questioned closely by Mr. Smythe regarding his relationships with the prosecutor.

Mr. Smythe enlarged on the fact that Taylor left Loar, his uncle, after seeing him stagger, took Crown by the arm and walked away with him.

Taylor stated that he had seen Collins on the afternoon of December 21, and that he wore a derby hat and an overcoat.

Mr. Smythe accused the witness of firing two of the three shots which were claimed to have been fired. After a long, sharp cross-examination, the witness was re-examined by the prosecutor, regarding the visits of the attorneys for the defense.

Dr. R. P. Barnes was next called. He stated that he acted in the capacity of coroner at the request of Dr. C. P. Leggett at that time coroner. He also stated that he conducted the "post-mortem over the body at the morgue. He stated that the wound was mortal; that it passed through the covering of the right lung, through the trachea or wind pipe, and was found just under the skin above the left shoulder. The witness at this point was shown a bullet but failed to identify it.

STRIKES IN PARIS

Paris, May 11.—The automobile strikers are displaying an attitude of extreme violence. Posted in the vicinity of the factories is a manifesto advocating the breaking of machinery. Military precautions have been taken to prevent outrages. Five hundred striking electricians invaded the telephone company's works for the purpose of intimidating workers, several of whom were assaulted. Fourteen strikers were arrested. Officials of the Confederation of Labor state that there are 125,000 persons on strike in Paris.

IMPRISONMENT
FOR VIOLATIONS

Penalty of the Act of 1877 Incorporated in the Rate Bill.

OTHER VITAL CHANGES MADE

Fine and Jail Sentence Imposed Against Shippers Who Secure Rebates From Transportation Companies—Government Business Given Preference in Time of War.

Washington, May 11.—The senate completed the consideration of the second section of the railroad rate bill and listened to the reading of sections 3 and 4 without considering any amendments offered to them. The purpose of this reading was to bring the consideration of the bill up to the point of taking up the Allison compromise amendments. A number of very important changes were made in the second section, including a provision restoring the imprisonment penalty of the act of 1887, and an amendment suggested by Senator McCumber imposing a penalty of fine and imprisonment against shippers who secure rebates from transportation companies. The latter amendment was incorporated for the purpose of hitting the trusts. Another adopted was offered by Senator Warren. It gives the government business a preference over all other traffic in time of war. A long series of changes were also made at the instance of the interstate commerce commission. Many of these were verbal and all were intended to improve the administrative features of the law.

Senator LaFollette attempted to secure the imposition of imprisonment for violations of requirements of the interstate commerce law. He proposed sentences of from one to five years, in addition to fines of \$1,000 to \$20,000, for unjust discrimination or false representations to secure business at less than the established rate. Calling attention to the fact that the Elkins act had removed the imprisonment penalty, he claimed that the effect had been a rapid increase in violations of the law. Senator Lodge expressed the opinion that it would be sufficient to restore the penal clauses of the interstate commerce act of 1887, and said he would offer an amendment to that effect at a later period. "It is the fact of the imprisonment and not the length of the term that will be effective," he said.

Mr. Lodge then offered his amendment restoring the penal provisions of the act of 1887 as a substitute for Mr. LaFollette's amendment. Senator Foraker discussed the recent report of Commissioner Garfield, saying that none of the evils complained of by him could be reached through the pending bill, if it should become a law, whereas all of them were covered by the Elkins law and could be remedied through that instrumentality if officials would do their duty. After further discussion Mr. Lodge accepted as a substitute for his amendment one prepared by Mr. Stone restoring the penalties of the old law in different form from that of his own. Neither the Lodge nor the Stone provision was satisfactory to Mr. LaFollette, who contended that the penalty in both was too light. The Lodge-Stone amendment was adopted by a vote of 49 to 27, and the amendment as amended was then carried by a vote of 73 to 2, the two negative votes being cast by Senators Gallinger and Pettus.

Said to Have Given Rebates. Roswell, N. M., May 11.—The Pecon Valley Railroad company, a branch of the Santa Fe, has been indicted by the federal grand jury on the charge of giving rebates to wool shippers and refusing the same treatment to other shippers. Warehouse and storage charges were violated, it is alleged, by the company to induce shippers to ship wool over the lines of the company. The shippers named as receiving rebates are Charles Bremond and G. C. Martin. The indictment is based upon the Elkins law.

Conflagration in Cuba. Havana, May 11.—Fire in the heart of the city of Pinar del Rio swept one entire square and part of another and destroyed a hotel, several of the leading business houses and some of the better class of residences. The fire could not be checked until some buildings were blown up with dynamite. The loss is estimated at \$400,000.

Mount Vesuvius. Naples, May 11.—The fresh eruption of Mount Vesuvius continues, although it is of small proportion. However, the detonations are so loud that there is a general fear that new lava streams are about to appear.

Natal Rifles Cut Up. Durban, May 11.—According to a report which reached here the Natal rifles have met with a disaster at Nelpmakar, in which a detachment of 10 men was cut up.

Street Railway Deal.

South Bend, Ind., May 11.—The Michigan City street railway system and the interurban line connecting LaPorte and Michigan City have passed into the possession of the Northern Indiana Railway company, represented by Arthur Kennedy of Pittsburgh, J. M. McSmith and J. M. McCance of South Bend. The lines will be made a part of the Northern Indiana system.

COULD WE LIVE
100 YEARS?

The Secret of Long Life is Not in How We Eat, but in What We Eat.

Most people wouldn't want to exist for that length of time, but most of us want to live to, say, at least seventy-five years, to enjoy the well-earned rest of a life of toil.

We can't live even to that age unless we take care of our stomachs.

The American has a longer life now than he had fifty years ago—statistics say so, and it must be true.

Why is it? Not because he works harder, but because he takes greater care of his machine—his body machine.

He has learned that it is a sin to overwork and burn out the stomach with too much heat-producing material—meat, for instance.

Heat is not strength, it is weakness. Muscle and bone is the strength we need. The heat part will then come naturally, and never in excess. Let us not hunt for it.

The hot stomach makes the brain hot.

Wheat!

The purest wheat, the wheat with the starch, the albumen and the flourin! This is the fighting material millions are buying today.

Wheat grains have a shell. The shell is not good to eat. You cannot digest it.

It makes the stomach work over time.

But the purified wheat, the pearly grain from which the chaff, the hull and the husk, and everything not rich and delicious, is thrown out.

That is Hardyfood.

Every part of it is consumed by the body and taken into the blood to make tissue.

It doesn't make clinkers but it will make you over.

It will give you a new stomach and clear out your kidneys. What will be the result? You will have better digestion, no constipation, full nutrition.

You will endure hardship better because it will give you power and strength in muscle and brain force.

Your mind will be clear, active and healthy.

Hardyfood is cooked, ready to serve.

Eat it with cream, you will find it delicious.

The stomach grabs at it, that is why it satisfies you.

Remember that Hardyfood has all the good that meat has, and three times more.

Meat has a small part of what wheat has, and three times less.

But you needn't stop eating meat altogether. A little now and then is useful. But cut down your allowance, and try Hardyfood.

From the time you try your first package of Hardyfood, your history will begin.

Your grocer will sell you a package for 10 cents.

To avoid the expense of future repairs on your porches, buy Red Cedar porch posts, rails and balustrades. For sale by the P. Smith Sons Lumber Co. 4-477

Sherick's Brief.

Indianapolis, Ind., May 11.—Attorneys for David E. Sherick, former state auditor, convicted of embezzlement and now serving a sentence of from two to fourteen years in the state prison, filed in the supreme court a brief supporting their petition for supersedeas in the reviewing of the Sherick case. The brief alleges that Louis Held, one of the jurors convicting Sherick, was prejudiced against the defendant. Sherick's release is sought pending the review of his case by the court.

DO YOU GET UP

WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is

wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent bottles are sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

INTERFERENCE
IN PANAMA

Insurrections Menacing Canal Zone Would Justify It.

ADMINISTRATION'S ATTITUDE

Will Support the Amador Government in the Event of a Revolutionary Movement—Declaration Likely to Prevent Trouble at Approaching Elections—Official Exchanges.

Washington, May 11.—Interference of the United States in support of the Panama government would be justified by election troubles or revolutionary movements in the republic of Panama.

Such is the tenor of instructions sent to Governor Magoon of the canal zone by Secretary Taft, who also submitted to Governor Magoon a letter from Secretary Root of the state department setting forth in detail what is stated to be the justification of American interference in the case of disorder in any part of Panama. This emphatic setting forth of the position of the United States, it is believed, will prevent serious trouble at the elections to be held in June. As Secretary Taft makes it clear that any disorder in the republic will hinder canal work, his letter will be doubly discouraging to opponents of President Amador, who are reported to have been planning a movement against him outside of the canal zone, believing that the United States would not suppress any insurrection unless it extends within the zone.

In his letter to Governor Magoon Secretary Taft says: "I have no hesitation whatever in saying that in my judgment an insurrection in any part of the republic would disturb the order in Panama and Colon and adjacent territory and would greatly increase the difficulties that the United States would have in constructing the canal, and while of course the forces of our government ought not to intervene until it is established that the republic of Panama can not maintain order in its own territory, I think the United States may properly, under the clauses of the treaty, construed in the light of the provision of the constitution of Panama to prevent its interference with the work of canal construction, suppress any insurrection in any part of the republic. Of course such action ought not to be taken until it is fully established that the government of Panama is not able to maintain itself."

Secretary Root's letter to Secretary Taft discusses at length the constitutional questions involved in the exercise by the United States of authority to maintain peace on the isthmus, and quotes a section from the Panamanian constitution which provides the United States may maintain peace in Panama in case this country agrees by treaty to do so. He also quotes a section of the treaty between the United States and Panama in which Panama grants the United States the right to preserve order in the new republic.

BECHTEL'S STORY.

Says a Former Insurance Commissioner Accepted a Bribe.

Minneapolis, Minn., May 11.—In case of the state against W. F. Bechtel, former president of the Northwestern National Life Insurance company, who is charged with grand larceny in having appropriated to his own use \$3,500 of the funds of the company, Mr. Bechtel charged that a former insurance commissioner of Minnesota had accepted a bribe of \$5,000 for a favorable report on the proposed consolidation of the Northwestern Mutual and the National Life association. This accusation was considered by the grand jury which indicted Mr. Bechtel, and in its report the grand jury severely reprobated the insurance commissioner, but said that he is exempt from prosecution under the statute of limitations. The amounts paid through Mr. Bechtel for the "reimbursement of Dr. F. J. Force, former president of the National Life association, according to the testimony, aggregated \$115,500, of which no record is found in the Northwestern National's books.

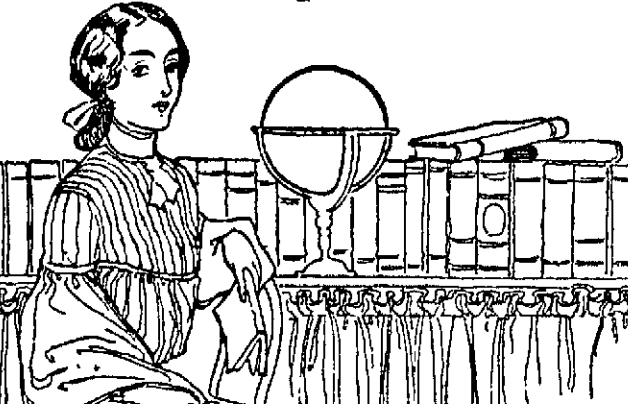

Aged Murderer Surrenders.

Rockville, Ind., May 11.—Stephen Sylvester, the aged man who shot and killed his brother, William H. Sylvester, at Montezuma, is in jail here. The murderer was brought here by Sheriff Carter and Marshal Boyd, to whom he surrendered at Montezuma. The officers made a quick drive to Montezuma, where Sylvester had taken refuge in a shed. Citizens in the meantime made efforts to capture him. Many shots were fired at his refuge and the posse was arranging to take it by storm when the officers arrived. Sylvester surrendered on being assured of safety and gave the officers no trouble on the way to this city.

Returned Indictments.

Pittsburg, May 11.—True bills were found by the federal grand jury against four of the banks clerks arrested in connection with the failure of the Enterprise National bank of Allegheny. The men against whom the indictments are brought are Thomas W. Harvey, Charles Menzies, George L. Ralston and Edward P. McMillan. They are charged with making false entries and false certification of checks.

Young Girls

Avoid The Dangers and Sufferings of Womanhood

Many a girl who graduates from high school or female college with a brilliant record and high standing is broken down before she is twenty.

Nowadays girls are pushed to the limit of their endurance both in school and society. They must make a success—even if they are forever unfitted for the larger school of life and debarred from the happiness of motherhood.

At this time of life, when just entering upon womanhood, nature makes heavy drains upon the vitality, especially at each monthly period,

Lydia E. Pinkham's Vegetable Compound

the most wonderful of all tonic restorative medicines for women, will tide a young girl over this trying time and bring her safely into strong, noble, beautiful womanhood.

Experience of a Beautiful High School Girl

Her First Letter.
MY DEAR MRS. PINKHAM:—I write to see if you can suggest some means to cure me. A little more than a year ago I was unwell for the first time, and since then I have been sick all the time in some way or other and suffered with painful and irregular periods. I went to a summer resort for my health and was decorated all summer, but to no effect. I have not been unwell for two months and thought I would see if you could do me any good. I attend High School and would not like to miss any time if it is possible. MARION BARBER, North Adams, Mass.

Miss Barber writes again after two years

MY DEAR MRS. PINKHAM:—Some time ago I wrote to you for advice, being troubled with irregular and painful periods and female troubles. I began taking Lydia E. Pinkham's Vegetable Compound and Liver Pills and using the Sanative Wash, and I am glad to say I am completely cured and have not had any sickness since. I wish to thank you for your kind advice and shall recommend your medicine to my girl friends. MARION BARBER, 101 Bracewell Ave., North Adams, Mass.

Free Advice for Young Girls

All young girls are earnestly urged to write to Mrs. Pinkham, at Lynn, Mass., for advice. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge. Thousands of women are well, strong and beautiful to-day because they made a confidant of Mrs. Pinkham and followed her instructions at this critical time of their lives.

GRANVILLE NEWS

Granville, O., May 11.—On Thursday evening the members of the faculty and the local trustees of Denison University, and their wives were delightfully entertained by the Shepardson family in the reception hall of the new dormitory on the Shepardson campus. The faculty and senior parlors were thrown open into the reception hall, and all the rooms were beautifully decorated for the occasion. Delicious refreshments were served, and the evening was most pleasantly spent. A few out of town trustees were present.

Granville was largely represented at the thirty-second annual meeting of the Women's Home and Foreign Missionary society of the Presbytery of the Zanesville district, held in Union on Wednesday and Thursday.

There will be a ball game on Beaver Field Saturday afternoon between the Central High school team of Columbus and the Granville high school team. The visiting team holds the championship of Columbus, and will put up a good game. The indications are that a large crowd will witness the game.

Mrs. L. H. Cannock of West Virginia is the guest of her father, Mr. H. LaFerre, and sister Miss Blanche LaFerre, at their home on Broadway.

Mrs. M. D. Butler and two little children Helen and Mary of Columbus, who have been visiting friends and relatives here during the past week, left Friday morning for Zanesville, where they will make a short visit before returning home.

Much interest is felt in Granville in the coming of the National Baptist Anniversary at Dayton for the first time this month. The meeting begins Wednesday, May 16, and continues for one week. Leading men among American Baptists are to speak. It is expected that many from Granville will attend as the national gathering has never before been held so near at hand.

J. S. Jones has purchased the one-third interest in the old Granville Female college property of E. W. Crayton of Newark. The remaining two-thirds are owned by Dr. A. K. Follett and Harry Thomas.

The members of the Berea, Steadman, together with Mrs. Pond, Mrs. Spellman, Mrs. Dr. Thompson and Mrs. Boneroff gave a shower to Miss Florence Granger Thursday afternoon at her home on Burg Street. Refreshments were served. Miss Granger, in company with Mrs. Henry Hobart, will leave Tuesday for Pueblo, Colo., where she will be married to Mr. Fred

Ransower. They will be married at the home of Mr. Howard Keller, a former resident of Granville.

Mrs. George Pease and Mrs. Mary Peck of Hampton, Iowa, are visiting at the home of Mrs. William Glendon Centerville.

Dr. and Mrs. E. G. Myers, who have been visiting here for some time, have returned to their home in Canton.

Mr. Crayton's Predecessor. Granville, May 11.—The Captain Coleman Gillilan of Scioto county, who was succeeded yesterday by E. W. Crayton of Newark as one of the penitentiary managers, is a brother of Rev. Frank Gillilan, who a few years ago was pastor of the Granville Presbyterian church.

Captured by Moors. Madrid, May 11.—A dispatch received here from Ceuta, the Spanish settlement in the northern part of Morocco, says that several Spanish fishing boats have been captured off the Rif coast by Moors, who treated the crews very cruelly. Repressive measures will be taken by Spain.

Declines Invitation. Washington, May 11.—President Roosevelt received through Senator Blackburn an invitation to attend on June 7 the commencement exercises of the Kentucky State college at Lexington. The president said it would be impossible to accept the invitation.

Chas. S. Dean of Newark, came up this week to take in the town and received here from Ceuta, the Spanish settlement in the northern part of Morocco, says that several Spanish fishing boats have been captured off the Rif coast by Moors, who treated the crews very cruelly. Repressive measures will be taken by Spain.

Chas. Edmunds and wife of Newark, are at the home of Mrs. Edmunds' parents, Mr. and Mrs. Burr Burr. Mr. Burr is suffering extremely at present from cancer.

Albert E. Lathrop, son of Dr. Lathrop, arrived in Johnston from Bay City, Mich. He comes to Ohio to take a position in The Great Western Clothing House, Newark.

McInturf School Closes—Harry Green Playing in Hard Luck—Personal and News Paragraphs.

Johnstown, O., May 11.—Miss Effie Wolfe closed another very successful year's work as teacher last Friday in the McInturf district. A fine program was rendered by the pupils at the afternoon session attended by many people. Miss Wolfe has the happy faculty of making both pupils and patrons her friends and as a consequence all regret the closing of the school year.

A fine draft mare belonging to Harry B. Green died Sunday evening of the owner a loss of about \$200. Tuesday a fine colt belonging to the mare also died. Just a few weeks ago a very valuable mule owned by Mr. Green also died, making his total loss in live stock recently nearly \$400.

Scene At Ceremony At Engineers Building, New York

Andrew Carnegie addressing crowd before corner stone laying.

New York, May 11.—Mid the applause of a large crowd present at the ceremonies the cornerstone of the United Engineering Building was laid Tuesday by Andrew Carnegie. Mr. Carnegie thus officially gave over the building, as his present, to the three national engineering organizations, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers and the American Institute of Mining Engineers.

Mr. T. C. Martin, editor of the Electrical World and Engineer, acted as master of ceremonies and presented to Mr. and Mrs. Carnegie the conventional silver trowel and gavel. Mr. E. E. Olcott, as president of the United Engineering Society, welcomed and introduced Mr. Carnegie. Mr. Olcott said in part:

"The societies to be housed underneath this roof have as their aim the preserving and putting in tangible form of the records of scientific accomplishments so as to avoid the repetition of mistakes. The possibility of finding the records of these results all at one center so near the

great public library will be an inestimable advantage to all professions. It is an occasion of no ordinary moment, therefore, when we can welcome Mr. Carnegie and have him lay for us the cornerstone of this great building which his liberality has provided."

Mr. Carnegie, his face wreathed in smiles, answered in a few words, thanking the committee for its welcome and stating that he was happy to have been able to do what he did in giving the new building to so worthy a cause.

CIRCUS TOMORROW

Facts and Figures Tell the Story of Ringling Brothers' Immense Circus.

Ringling Brothers' circus is the largest in the world. 1,280 people are employed in its various departments; 650 horses are used, and it requires 85 cars to haul the huge enterprise from place to place. Twenty tents are spread for the daily exhibitions. The circus tent proper will seat 14,000 people comfortably. The performance takes place in three rings, two stages and on a hippodrome track a quarter of a mile long. Three hundred performers take part in the immense program, and 200 highly bred and educated horses are used in the ring acts. In the menagerie department are 108 cages and dens, occupied by the rarest and most valuable collection of rare wild animals in the world. A herd of forty elephants, the largest in captivity, is to be seen in this annex. A rhinoceros, two giraffes, hippopotamus, a horned horse, white polar bear, tapir, black vulture, baby tigers, and black leopards are other rare animals to be found in this zoo. The performing elephants are the most remarkable educated beasts ever seen, and the trained seals present a marvelous exhibition of animal intelligence. The ring performances are characterized by novelty and sensation, and many of the leading artists are European celebrities appearing here for the first time. Clark Brothers, Gilbert Eldred and the four Bedins, the leading exponents of bareback riding in the world, are in this class. The DeKock family, Ernesto Sisters, Herr Fuss, 5 Normans, Nelson Comiques, Young Brothers, 5 Mowatts, Ori troupe and the Clarkmans, are among the imported gymnasts of international fame. The gorgeous spectacle of the Field of the Cloth of Gold employs 1200 characters, 200 dancing girls and 300 choristers. The music is rendered by a band of fifty musicians. This chorus is truly the world's greatest, and an institution of American origin and growth. Ringling Brothers' marvelous shows will exhibit at Newark tomorrow, May 12 giving two performances, afternoon at 2 and evening at 8 o'clock.

ACQUITTED

In the Septuagenarian, Though He Confessed He Set Fire to a Church for Pay.

Wabash, Ind., May 11.—A decided sensation was produced in court here yesterday afternoon when Andrew Oswald, aged 70, testified that he had been paid \$25 by Frank Ireland, a former trustee of Pleasant township, and James Roney, the present trustee, to set fire to an old church owned by them.

The building was insured for \$500, though only worth \$200. The insurance was never collected.

Oswald was acquitted in spite of his confession because the owners could legally burn their own property. He was not guilty of an attempt to defraud the insurance company, not knowing that the building was insured.

B. & O. COMPANY

Will Have Travelers Vote on Form of Mileage Book Desired and Abide by the Vote.

The B. & O. railroad is attempting what it considers a fair and straightforward solution of the mileage book problem. On that road down east is issued a 1000 mile book interchangeable among the B. & O., the P. R. R., the Reading and several other roads. This book costs \$30, and a rebate of \$10 is given. This is the rebate against which there is so much agitation. The B. & O. offers to continue this book or to sell one not interchangeable, but good only on the B. & O. for \$20, without a rebate.

A postal card is now given with each book purchased from the B. & O. on which the two propositions are set forth, and the recipient is asked to vote for whichever form of book he thinks most desirable. The votes will be sent to D. B. Martin, passenger traffic manager, and after a fixed period has elapsed they will be counted. The company promises that the vote will settle its action henceforth.

IN NO HASTE

Is Governor Pardee to Call Special Session of the Legislature.

San Francisco, May 11.—Although being strongly urged by many influential interests to call an early special session of the state legislature, Governor Pardee is in no haste to take action in the matter. He openly declared himself against a precipitate course by saying, "It is better not to have any legislation at all than to enact bad laws." That there is urgent need of unusual legislation to meet the distressing result of the disasters that have befallen San Francisco, Santa Rosa and San Jose the governor readily admits, but he insists upon having a planned program for the legislators mapped out before he issues his convening call.

LOVERS

Since Childhood, But the Rich Milliner's Daughter Divorces the Fashion Plate.

Cleveland, May 11.—As a sequel to a runaway marriage four years ago Mabel Ellen Hart, daughter of Frank W. Hart, a wealthy Cleveland wholesale milliner, has divorced Philip McCabe, a young man of fashion, whose home is in Painesville. Mabel Hart is one of the most beautiful girls in society in Cleveland.

She and young McCabe had known each other in childhood, and became lovers when McCabe's mother moved to Painesville and the Harts bought a country place near by.

McCabe had gone west to seek his fortune when young John Gilchrist, of the well known Cleveland family, appeared upon the scene. He had the favor of Miss Hart's parents.

McCabe came rushing back. He married pretty Miss Hart. They were off on their wedding trip before Hart, Sr., knew what had happened. A messenger from Papa Hart overtook the elopers in Canada and brought his daughter home. McCabe, after a vain wait of months in Cleveland, went to Muncie, Ind., and young John Gilchrist's attentions to the pretty Miss Hart have been renewed. It is hinted that another wedding in which Miss Hart will play the star role may soon take place.
